

PROFESSIONAL DEVELOPMENT FOR POST FELLOWSHIP TRAINEES IN THE WEST MIDLANDS

PROGRAMME CONTENTS 2021

UPDATED 22/04/21

A series of study days / workshops on 'Development of Professional Knowledge, Skills and Attitudes' for Post Fellowship Trainees in the West Midlands.

- Introduction / Programme Overview
- Venue
- Timetable of Events
- Application Process

This programme is a joint venture between the three West Midlands Schools of Anaesthesia. It has been specifically designed to meet the Royal College of Anaesthetists curriculum requirements for advanced training in Anaesthesia (Post Fellowship). As this is part of the curriculum for Senior Trainees, all trainees are strongly encouraged to have covered all modules at some time during the final three years of the CCT training either by attending this course or completing these modules elsewhere. Evidence of development of professional knowledge, skills and attitudes will be sought at the Exit ARCP.

The programme consists of a series of seminars covering a range of management topics. Its purpose is to assist in preparing participants for the challenges of management to be found in a first Consultant appointment.

TOPICS

**Free of charge to School of Anaesthesia Trainees
in the West Midlands**
